Experience Europe through the train window

More and more of us choose to travel by train rather than fly, regardless of whether it's a long weekend in the city, a family holiday in the sunshine during summer, or a trip with work. In the first half of 2018 alone, 30 per cent more Interrail cards were sold in Sweden compared to the previous year. And there are many good reasons to travel by train: the climate of course, but also the more relaxed tempo and the chance to discover and see not only the destination but also the route.

On the train through Europe describes 10 exciting and attractive train journeys with tips on the exact routes, trains and transfers, but also sightseeing and restaurants on the way. The book offers a whole range of practical advice on how and where it's easiest to plan and book items such as train tickets, seats and sleepers. Which apps are best to use for what? Which booking pages on the internet? Are there any physical booking agencies that could be of help? You also get tips on smart packing, items that are handy to bring along and how to travel safely.
